The tapestry of artistry exercised is confounded in exact laws, pristine canons, and genuine landmarks engrained. It is the opportunities bestowed to virtuously conceive, reconceive, receive and retrieve that all treasured merits within its true wholesomeness is the birth and breadth of these eternal distinctions, also doctrines decreed. These very sacred obligations, eternal rights, also supreme languages within all rights of passages provide both fruitful, colorful, refreshing, miraculously revealed, often powerful healings, also the exposure to a place known, Providence. It is both generative and celestially provided gifts, passed down to us, also over to us in real blessedness to revere with open arms, ne-plus-ultra.

Through this, all that are to benefit are exquisitely yet remarkably created, which that are the faithful created, and to that faith, faith created. To be deposited within greatness greatly it is created, as I have. It is to be created also deposited compassionately, knowingly all-seeing within all eyes, even within those in which society deem are unseen, uncorrupted. They and I truly provide within these most beatifications of consecrations and sanctifications of all vocations, beatific discipline in which we also I all believe. In which to take note of faithfully, to uphold within radiant integrity towards these incredibly credible discernments, faith created both deposited and received is within eternal expanse, without depletion or expensed, Firm Amen.

Upon, these are equally formative, sociable and living, formidable and heavenly, literate and keen, undeniably acute formulaic brilliant angels. Also, just as equally radiant, they have profoundly moved beliefs and sometimes with miraculous gifts shown without exception. They are singular, eternal blessedness and they are truly ascensive as well as together with me daily within Sacred Union. In Providence concessions within our truly Megalocarta of Our Lady of Unio it has been for me to adopt within adeptness, within these Holy Spirits, our true Twin Holy Covenant.

This Treasury of Merits, this great nationality provoked, invoked and without revocation under these very evidential Canonical Theointercessors of Canonical Thaumaturgy without disbelief, disregard, or disrespect is great nationality benefited without the need nor desire to mislead. We continue to refine the eternal foundations, eternal Fettle Patronage, and what it means to find faith either again or discovered through them, faithfully renewed throughout Providence.

They have simply been inspired, just as I have.

I realized and actualized within all-quantums time also space, they are from our heavens, both profoundly real also communicative, they spread very important gifts upon the very breadth of life into all our eternal children, hopes also dreams, to find joy acknowledge, and to be gifted back to them with eternal gratitude. They like feeling appreciated and respected. They are very holy and very special gifts they provide us, plus they like deposits back too. When we are depositing these very gifts also graces and they are too without revocation as addressed equally, it further eternally expanses eternal light into all manifestations, without unmanifest. What this means within mandates, Theordinances and statutes, by virtue alone,

these treasured merits continue to provide from our Fettle Patronage an eternal quantum continuum that presides also resides within the center of all-quantum faith, sometimes called the Eighth Day. A very powerfully visible or even sometimes to some even great power invisible provided gives to others a multiplicity of heavenly pre-ordained bestowments we didn't know we had. These gifts, ordained by G-d acknowledged or not, no matter how far we have reached or achieved, are at the heart of the truest of these undenied heavenly beings and what they guard also protect within sacred office. All vocations are supernatural under Canon that Holy See from G-d. It has been paid for, also from and even within this very powerful Canonical Thaumaturgy also Theurgy supernatural laws, sometimes called gifts. These gifts provide confidence, forgiveness, and the right to hold office. That in which what we defined as our Fettle Patronage, is also not from here, it's from heaven.

Nor am I from here, I am from G-d and those that Holy See.
